(54) Title: ELECTRICAL DEVICE WITH A SAFETY SWITCH

(57) Abstract: A hand held electrical appliance operable from an AC mains supply. The appliance having a first switch connected in series with the mains supply, and a second switch operatively associated with the first switch and connected in series therewith. The appliance is only operable when both the switches are operated. The appliance includes a low voltage transformer, and a relay connected to the output of the transformer via the second switch and energisable thereby. The switchable contacts of the relay being in series with the first switch.
